Family Literacy works!

Families First project

We received funding from the **Lyle S. Hallman Foundation** to implement the 2nd phase of our Families First project. Our goal is to generate a sustainable scaled up model for family literacy across Waterloo Region within 2 years.

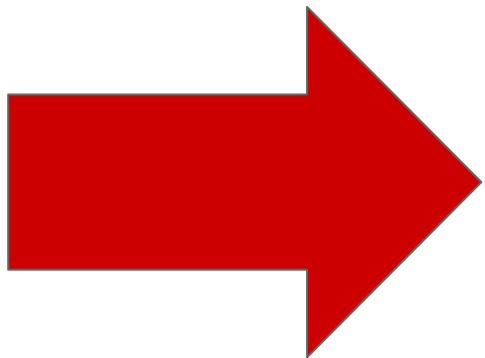

In the past year of the project, we developed:

- a Family Literacy Certification program
- a Family Literacy Training program
- a Family Literacy Peer program

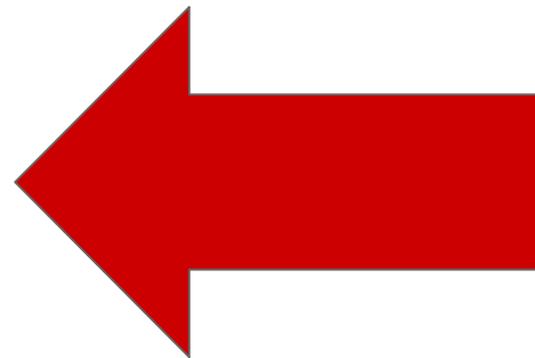

In addition to the program development, we are developing a Social Enterprise model and various Marketing & Communications supports to help us continue to deliver these programs in the future.
